## UNSYSTEMATISCHES ALPHABET

This typographic-editorial project mixes the art and craft and type development.

The letters first were cutted and printed in linoleum, then they were organized into a font family. The linoleum and the digital letters were used to set two different «spe-zines», one hand printed and the other risograph printed.

Asistematica is an Spe-Zine / font / patterns project

[Video overview](#)

*Linoleum cut letters*

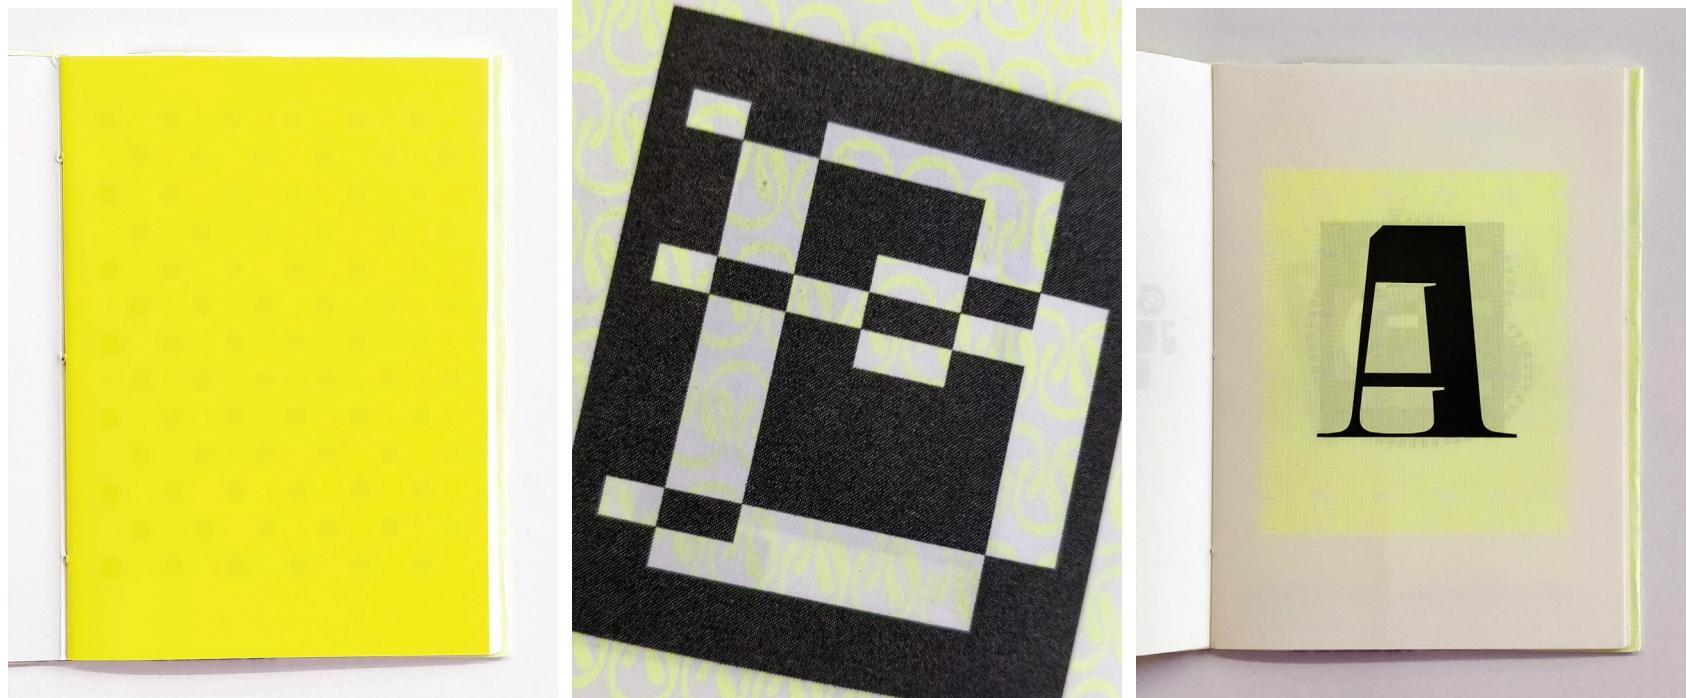

- Berlin, October 2022
- Size: A6 105 x 150 mm
- 32 pages
- Inhaltprint: linoleum print
- Color: black + green
- Cover: Canson Mi-Teintes (160 gr)
- Origami binding
- 4 copies

### Riso print

It is an ABC SPE-ZINE.  
It presents us an asystematic letter set.  
The letters were cutted in linoleum between winter 2019 and autumn 2021.  
Each letter is influenced by the facts of its moment and the diversity of its occurrence.  
In spring 2022 the letters were digitized, and I've decided to include a pattern set in the lowercase slots. The project became a publication at some point during those times.

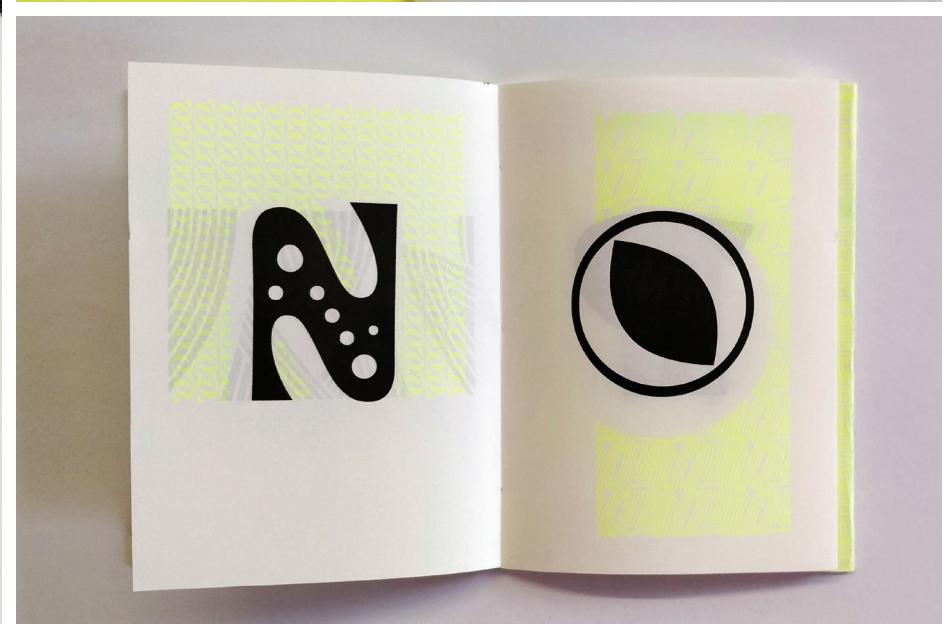

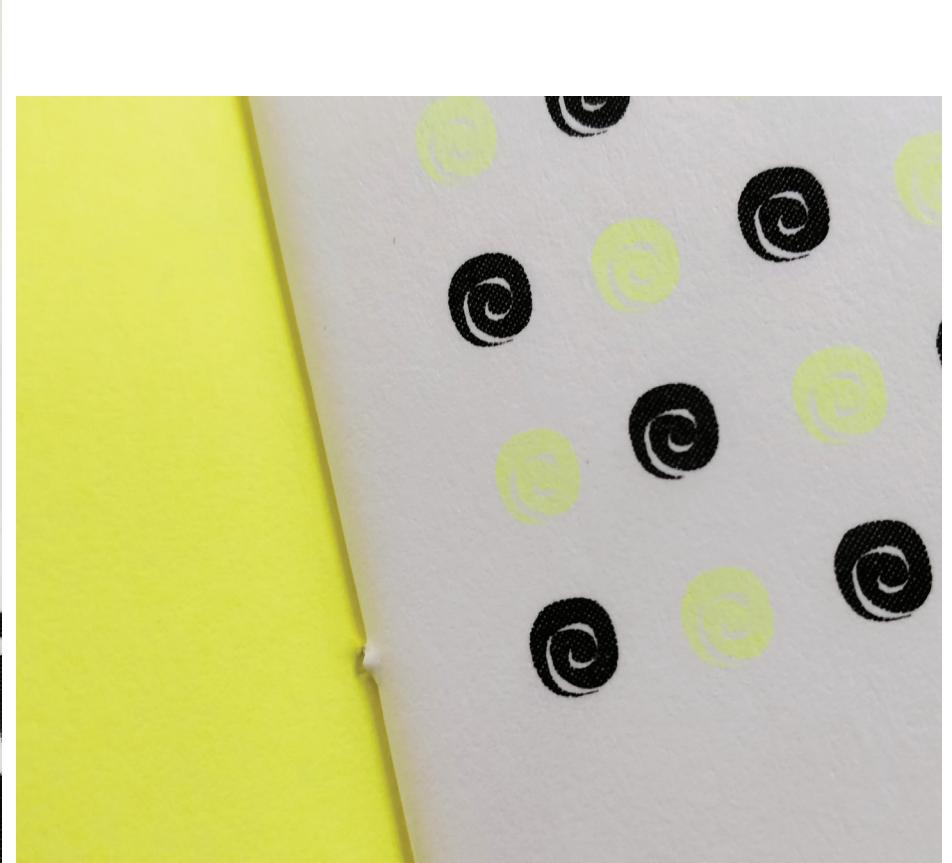

There are two presentation, the *linoleum cut letters* and the *risograph printing zine*.

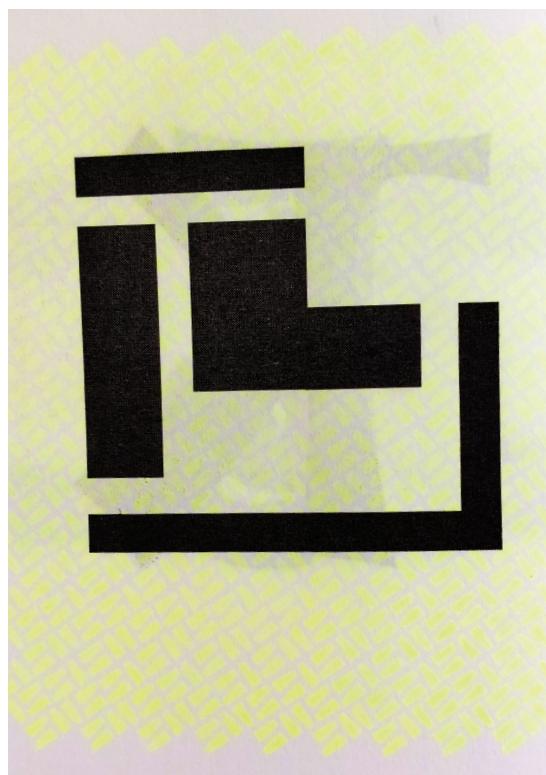

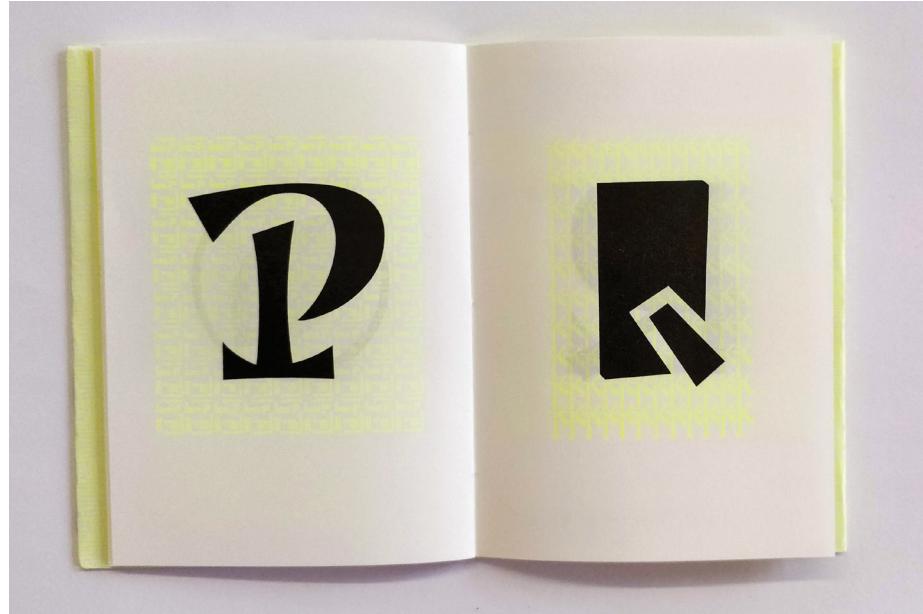

### Risograph version

- Berlin, October 2022
- Size: A5 105 x 148 mm
- 27 pages
- Inhalt print: Risograph
- Colors: black + fluo yellow-green
- Cover: softcover (170 gr) + poster jacket
- Hand binding (white thread never goes over black illustration)
- 50 copies
